WHAT EACH REPORT ADDRESSES

- Diagnosis and current clinical findings
- Causation and relationship to the reported mechanism
- Appropriateness of treatment rendered to date
- Need for further diagnostics or treatment
- Maximum Medical Improvement status and date
- Permanent impairment rating where applicable
- Work capacity and functional restrictions
- Anticipated future medical care

APPROACH

Records are reviewed in advance of every examination. Findings and opinions are stated to a reasonable degree of medical probability, with the supporting reasoning shown rather than asserted. Conclusions do not vary with the source of the referral, and cases falling outside the scope of Dr. Harb's expertise are declined rather than accepted and qualified.
